## Personal Details

- Date of Birth : 21/03 /2004
- Gender : male

## Education

- **AKTU** 2026  
B.Tech
- **Loni Inter college** 2021  
Intermediate
- **M M inter college** 2019  
Matric

## Skills

- Programming: C, Python, Java
- Web Development: html, css, javaScripts
- VC & Collaboration Tools: git ,GitHub

## Projects

- **Portfolio Website**  
Created a personal portfolio website to showcase my projects and skills. The site features an interactive design and user-friendly interface, demonstrating my ability to develop engaging web experiences. (<https://github.com/jasvant0020/portfolio-website->)
- **SecureVision**  
This project is a person detection system built using YOLOv8 and OpenCV. The application processes video input, detects persons in the frames, and plays an alert sound whenever a person is detected. It uses pygame for non-blocking audio playback to ensure smooth operation. This system is designed for use in monitoring restricted areas, where government or security agencies may need to ensure no unauthorized personnel are present. (<https://github.com/jasvant0020/SecureVision>)

## Objective

Motivated B.Tech student in Computer Science seeking opportunities to apply technical skills and contribute to innovative projects in a collaborative environment.
